

Department of Computer Science and Engineering

About Industry Institution Summit 2025:

Theme: Cybersecurity, Data Privacy, and Resilient Systems

Hosted by: Hindustan Institute of Technology and Science, Chennai

in association with: The Institution of Engineering and Technology (IET)

The Industry–Institution Summit 2025 organizing by Hindustan Institute of Technology and Science aims to bring together leading experts from academia, industry, and research institutions to foster collaboration, innovation, and knowledge exchange in the rapidly evolving domains of Cybersecurity, Data Privacy, and Resilient Systems. As technological advancements accelerate and digital transformation becomes inevitable, ensuring secure, private, and resilient digital ecosystems has emerged as a national and global imperative.

This prestigious summit will feature:

- 10 High-Impact Panel Discussions with 50 distinguished leaders from global industries, regulatory bodies, and premier academic institutions.
- 5 Exclusive Keynote Sessions delivered by eminent visionaries shaping the future of security and trusted digital infrastructures.

The sessions will explore key areas such as:

- Emerging cybersecurity threats and defense strategies
- Regulatory frameworks and data governance models
- AI-driven privacy-enhancing technologies
- Next-generation network and cloud security
- Organizational resilience and cyber-crisis management
- Building future-ready talent pipelines through academia–industry collaboration

The Summit will provide a platform for 500+ delegates, including professionals, researchers, faculty, and student innovators, to engage in thought-provoking discussions, exchange best practices, showcase cutting-edge solutions, and develop strategic partnerships for impactful outcomes.

With a vision to strengthen India's digital defense ecosystem and promote an innovation-driven academic environment, the Industry–Institution Summit 2025 will serve as a catalyst for

knowledge fusion, skill enhancement, and collaborative research while supporting the nation's mission toward secure and sustainable technological growth.
